

## eMOBILETEK

eMobileTek was founded in 2001 as a training company focused on providing customized computing courses for topics not offered by most training companies. Our first topic was PDA/Palm computing.

Today, we offer a wide variety of services including Networking, Security, Application Consultation, General Computer Services and Staff provision. In addition, we continue to offer training courses, both standard and ones customized to your specific needs.

eMobileTek serves many major Fortune 500 companies as well as many other corporate and government clients.

## WHO WE ARE

### *Computer Training & Services*

Ann Arbor • Toledo  
[www.emobiletek.com](http://www.emobiletek.com)

## WHAT WE OFFER

Welcome to eMobileTek, your resource for general computer services including support and guidance for your computer systems. We also offer computer training with standard and custom course offerings. Our qualified team of techni-

cal staff can offer you:

- Computer services, specializing in providing only the specific on-site resource you need on a scheduled basis, reducing your cost.
- Staff Augmentation to supplement your existing IT staff.
- Consulting services for Access, Excel and Word Applications.
- Microsoft Office Suite, Lotus and Desktop Publishing Applications as well as other customized classes are available at your facility or ours.
- Your go to service partner and trusted advisor.

For details on our service offerings and for our current course schedule, please visit us at:

### Computer Services

eMobileTek is now offering a broad range of general PC and network services including staff augmentation, general PC and network troubleshooting, system setup, virus and spyware removal. Please call us to discuss your specific needs.

### Consulting Services

eMobileTek can assist you in performing migration of files between applications, and other specialized data manipulation including macro development, spreadsheet and other template development. We support most Microsoft Office applications.

### On-Site "Computer Partner"

We have been successful in providing the resources you need to resolve your computer software, Internet questions and problems. In addition, we document the services we provide and leave behind a binder containing your computer environment. This service can be provided on a monthly to daily basis and is a cost effective alternative to the high rates for emergency response that our competitors charge!

### Two Locations to Serve You:

### Training Services

We teach a variety of standard courses including Microsoft:

- Access
- Excel
- FrontPage
- Outlook
- PowerPoint
- Project
- Publisher
- Visio
- Windows
- Word

We also offer a variety of other course offerings including:

- Adobe Acrobat
- Adobe Photo-shop
- Crystal Reports
- Act!
- Corel Draw
- HTML
- Lotus Notes
- PageMaker

eMobileTek instructs with a small class size of 4 to 12 students. Please see our website for our current schedule of courses.

### Customized Courses

In addition to our standard course offerings, eMobileTek specializes in developing and delivering course content on almost any technology. We have provided custom training for PDA computing, Help Desk etiquette, IP Telephony end-user orientation and Project Management methodologies.
